Re: Letter of Solidarity to striking UPEIFA members

Dear President Arfken and the members of UPEIFA,

On behalf of the more than 600 faculty and academic staff members of the OCAD University Faculty Association we wish to extend a message of solidarity to the 400 striking faculty members, librarians, sessional instructors, and clinical nurse instructor members of UPEIFA.

You are the conscience of UPEI, and your commitment to maintaining a reasonable faculty complement, reasonable workloads, research support, pay equity and job security for sessional instructors, and adequate working facilities will improve not only your own working conditions, they will improve student learning conditions.

You are not alone. You have the full support of faculty associations and academic staff unions, and the broader labour movement, from across the country.

Stay strong UPEIFA, and strike to win!

In Solidarity,

Min Sook Lee,
President, OCADFA
